PROJECTS

GitHub: <https://github.com/Jayde1600>

Disaster Recovery (Full Stack)

📅 October 2023

Coursework: Semester long project (Website) – (Azure DevOps)

- Managed my time effectively while working alone on this project, concurrently developing the Bird-Watching app, unit testing, publishing, etc.
- Created a registration and login system with user validation, enabling users to view their details and access different features based on their admin status.
- Utilized Visual Studio 2022 and Azure DevOps to store users' login credentials and donations, including donor names and donation times.
- Technologies and Languages: C#, ASP.Net Core, Entity Framework Core, Entity Framework InMemory Database, HTML & CSS and XUnit.
